

FEATURED ENVIRONMENTAL EQUIPMENT

YSI Multi Parameter Meter

- Smart Digital Sensor Technology
- Rugged, Field Ready Design (IP 67 Rated)
- Multi Parameter Flexibility in One Instrument

Alexis Low Flow Peristaltic Pump

- Precision Low Flow Control with Variable Speed Operation
- Constant Voltage Boosting Technology (CVBT)
- Rugged, Portable Field Ready Design

RKI GX-6000

- Simultaneous Monitoring of Up to Six Gases
- Advanced PID & VOC Detection Capability
- Built for demanding field conditions

Jerome J405 Mercury Vapor Analyzer

- Ultra Low Level Mercury Detection
- Proven Gold Film Sensor Technology
- Portable, Field Ready Design with Survey Mode

GEM 5000 Landfill Meter

- Comprehensive Landfill Gas Measurement in One Instrument
- Highly Accurate, Fast, and Regulatory Ready Performance
- Portable Design with Advanced Data Management

Thermo Scientific TVA 2020 Fid

- High Sensitivity FID for VOC & Method 21 Compliance
- Lightweight, Intrinsically Safe Field Design
- Efficient Data Handling & Field Serviceability

Olympus IPLEX Glite Remote Visual Inspection Systems

- Exceptional Image Quality for Precise Defect Detection
- Advanced Measurement & Inspection Intelligence
- Rugged, Field Ready Design for Harsh Environments

Olympus 39DL Thickness Gauges

- Ultra Fast, High Accuracy Thickness Scanning
- Advanced Ultrasonic Capabilities for Multiple Applications
- Connected, Tough, Field Ready Design

X-550 XRF Analyzer

- Measures low Z elements using optimized X ray tube geometry
- Supports fast alloy ID with pre configured, multi beam apps
- Dual camera system enhances targeting and documentation accuracy.

WHY PARTNER WITH MES LIFE SAFETY?

- Single source safety partner for products, servicing, and training needs
- Broad access to leading manufacturers across gas detection, fall protection, confined space, and respiratory safety
- Expert technical support from knowledgeable specialists who understand industrial applications and compliance demands
- Calibration, repair, and maintenance services that help minimize downtime and extend equipment life
- Nationwide footprint enabling consistent support across multi site industrial operations
- Customized safety solutions aligned to site specific hazards, workflows, and regulatory requirements
- Responsive service and logistics to keep critical safety equipment available when and where it's needed
- Training and compliance support that helps improve worker safety and operational confidence

PPE Offerings

Harness' SCBA, Vest, Hard Hat, Glasses etc.

Services

Maintenance, Calibrations, Rental Protection Program, Long Term Rental Program

ENVIRONMENTAL TELEMETRY SOLUTIONS

Delivering reliable, efficient, and safe monitoring.

Air, gas, water level, water quality, sound, and meteorological telemetry solutions provide real time environmental insight by transmitting critical sensor data from the field to centralized platforms. These systems support early hazard detection, regulatory compliance, and informed decision making through reliable, continuous monitoring across diverse and remote environments.

- 24/7 live reading data streaming, alerts and trends to phones, tablets, and computers
- Flexible power and communication options include solar, GPS and cellular
- Rugged NEMA-rated enclosures protect critical equipment from harsh environmental conditions

PPE & FIELD ESSENTIALS

Hand Protection

- Nitrile
- Vinyl

Body Protection Suits

- Coveralls
- Hoods
- Bibs
- Chemical Resistant
- Boot Covers

Bailers

- Various Lengths & Diameters
- Tethering Capability
- Lightweight and Portable

OTHER AVAILABLE PPE

- Head Protection
- Foot Protection
- Hi-Vis Apparel
- Respiratory Protection
- Eye Protection
- Hearing Protection
- Fall Protection

MES SERVICES

Calibration & Repair Services

Onsite or inhouse service and repair by certified service technicians out of one of our mainly locations across the US and in Canada. Products serviced include Gas Detection, Noise Monitoring, Fall Protection, Respiratory Protection (product service and fit testing)

Rental Services

- Complete product inventory of environmental and fall protection solutions
- Fleet housed at numerous locations across the US and in Canada for quick delivery/pickup
- Same day shipping available
- Inhouse tech team for support while products are in use

Dielectric Testing

- Fast turnaround time
- Documented Test Results and Traceability
- Standards Based Compliance Testing

Hydrostatic Testing

- Facilities located across the US
- Quick turn-around time
- Documented test records
- Pickup and Delivery Available
